PROFESSIONAL SUMMARY

Data Analyst specializing in Business Intelligence, KPI reporting, and performance insights. Skilled in SQL, Power BI, and Excel with experience improving data quality, automating dashboards, and supporting decision-making. Known for clarity, analytical thinking, and strong communication.

CORE COMPETENCIES

• Business Intelligence & KPI Development
• SQL Analytics (CTEs, Window Functions, Joins)
• Power BI Dashboard Automation (DAX, Data Modeling)
• Excel Reporting (Pivot Tables, Lookups, Power Query)
• Data Cleaning & Validation
• Data Storytelling & Insight Communication
• Performance Monitoring & Trend Analysis

EXPERIENCE

Data Analyst Intern — Edgeline Tech Academy (Remote) | 2025
• Improved reporting accuracy by 30% through structured data cleaning and validation.
• Built interactive Power BI dashboards tracking KPIs and operational trends.
• Contributed to monthly BI reporting cycles by analyzing and summarizing key patterns.
• Delivered weekly analytical insights across remote teams.
• Enhanced documentation and workflow standardization.

PROJECTS

FMCG Sales Intelligence System — SQL + Power BI
Analyzed multi-region FMCG sales to surface revenue trends and growth opportunities. Built SQL queries to compute KPIs and deliver insights used for pricing and planning.

Healthcare Risk Profiling Dashboard — Power BI
Cleaned and modeled healthcare datasets. Built an interactive dashboard highlighting high-risk population segments.

Call Center Operational Performance Dashboard — Power BI
Designed a KPI dashboard tracking call volume, agent output, and service efficiency. Improved visibility into bottlenecks and operational gaps.

EDUCATION

Higher National Diploma (HND), Computer Science
Auchi Polytechnic, Edo State, Nigeria | 2023
